The first of the season's Christmas trees were received by several local merchants Friday. Most of the Burlington trees come from the vicinity of Bolton and Huntington, there being an abundance of scrub spruce in that section of the State. Owing to a shortage of freight cars, huge piles of these trees which have been collected for shipment to New York and Boston are waiting at railroad stations throughout the State. Many farmers also make a neat addition to their Christmas funds by making holiday decorations of pine and holly wreaths, most of the holly being brought from New York. Although the margin of profit on the individual tree is slight, they prove quite a useful article of commerce, for, after all, what is Christmas without a Christmas tree?
